EXECUTIVE PROFILE

With a total of over 20 years of IT expertise, I've spent the last 10 years being a customer-facing Google Cloud trusted advisor. Technology enthusiast and passionate about learning and helping others learn about technology. Currently rocking the cloud as Principal Cloud Strategist, staying ahead of the curve with professional certifications & Authorized Trainer enablement.

PROFESSIONAL EXPERIENCE

Principal Cloud Strategist | **Devoteam G Cloud** 2026 - Present (Madrid)

- Providing strategic direction and designing complex Google Cloud Platform solutions for key enterprise accounts.
- Leading infrastructure modernization, data strategy, and AI initiatives, maximizing the value of the Devoteam & Google partnership.
- Coordinating cross-functional teams and managing high-level technical and commercial relationships to accelerate clients' cloud maturity.
- Executive Stakeholder Management: Advised C-Level executives to transform complex business challenges into efficient, scalable solutions.

Principal Architect & Tech Lead | **Devoteam G Cloud** January 2023 - December 2025

- Architected end-to-end cloud adoption blueprints, landing zones, and cloud-native solutions across enterprise clients.
- Led technical squads in multi-region infrastructure migrations, microservices architectures, and FinOps cost governance.

Architect Lead Google Cloud | **DXC** June 2017 - December 2022

- Providing cloud pre-sales and solutioning architecture support; evangelizing Google Cloud to prospective enterprises.
- Assessing customer objectives and business requirements to develop cloud adoption strategies and implementation roadmaps.
- Identifying appropriate milestones and KPIs to measure success and refine ongoing cloud strategies.
- Leading Google Cloud architecture reviews according to best practices and spearheading adoption for Iberia customers.

Delivery Lead VMware | **Hewlett Packard** April 2010 - June 2017

- Delivery Lead in the virtualization capability on HP Enterprise, performing team management, resource control and planning.
- Technically managing VMware infrastructures typically for large accounts (approximately 500 hypervisor ESXi nodes).

System Engineer | **Hewlett Packard** December 2006 - April 2010

- Senior systems engineer at HP ITO providing third-level engineering support for Wintel and VMware platforms.
